Research Paper No. 16

Cultural Frontiers in the Upper Cache Valley, Illinois

[Close Window](#)

Contents:

Part 1. The Management Evaluation

1. Introduction
2. Project Design
 - Soil Conservation Service Project
 - Environmental Setting
 - Cultural-Historical Setting
 - The Archaeological Project
 - The Research Framework
3. Archaeological Survey: The Sample
 - Reconnaissance Survey Design
 - Survey Implementation
 - Survey Results and Evaluation
 - Conclusions
4. Recommendations
 - Project Design
 - The National Register of Historic Places
 - Summary

Part 2. The Archaeological Interpretation

5. Geology of the Shawnee Hills
 - The Ozark Division
 - The Shawnee Hills Division
 - Implications for Archaeological Patterns
6. An Environmental Model for the Upper Cache River Drainage
 - Rationale and Methodology
 - Holocene Climate and the Interior Shawnee Hills
 - Environmental Stratification
 - Secondary Succession
7. Prehistoric Chert Exploitation in the Shawnee Hills
 - Introduction
 - Chert Exploitation
 - Research Potential in Southern Illinois
 - Archaeological Description of Exploitation Patterns
 - Problems and Directions for Further Research
8. Seasonal Subsistence in the Shawnee Hills
 - Regional Settlement-Subsistence Models
 - Subsistence in the Shawnee Hills: An Assessment
 - A General Year-Round Seasonal Settlement-Subsistence Model
 - Conclusions and Recommendations
9. The Cache River Lithic Analysis

Introduction
External Comparisons
Internal Comparisons
Summary

10. Upland Archaeology: Research in the Shawnee Hills
Appendixes

- A. Archaeological Resources
- B. Transect Sampling Estimates
- C. Community Distribution Maps
- D. Phosphate Testing
- E. Analytical Attributes of the Cache River Lithic Analysis
- F. Ceramic Analysis
- G. Analysis of Faunal Remains
- H. Ground-and-Pecked Stone
- I. Historic Artifacts
- J. Plant Resources of the Upper Cache River Drainage
